COMPANY PROFILE

At your side since 1948

CCS developed and established its organization through the years by working for highly renowned customers and dealing with some of the most important industries in Italy and on abroad

INTERNATIONAL FREIGHTS

CCS Cutillo Cargo Solutions is specialized in both international sea and air shipments. CCS finds its roots back in 1948, in the field of international shipments – at that time mainly by sea, thanks to the personal experience collected in this area by the founding members. Today, we are able to provide to our customers tailored logistic solutions from and to any place in the world.

Through the years, our company has strengthened its presence on all foreign markets, focusing in particular on the United States of America and the People Republic of China, thanks to the valuable cooperation of partners and agents all around the world.

In addition, CCS has in place a network of partners and agents throughout all the major ports of the world that are not only financially strong but also highly experienced.

Our strenght is based upon an organization consisting of highly specialised departments. Such departments report to General Operation Management, but enjoy freedom and flexibility in order to help our customers to implement their projects successfully. By sea for large volumes, by air to grant punctuality and by road to reach any place, CCS is always Your highly professional partner for international freight forwarding.

LAND FREIGHT & PROJECT

The best freight rates and transport conditions

Since the beginning of its activity in 1948, CCS has been paying particular attention to the transport of equipment and machinery of exceptional weight and size, and has now reached a high level of experience and professional skill in transportation by land, by sea and by air. This is why Otim has developed this service offering his customers the best transport quotations on all in "door to door" bases worldwide export and import.

CCS grants the best market conditions with particular attention to delivery terms and schedules. CCS offers many other possibilities such as sea and air chartering, assist and oversee the loading and discharge operations.

SEA FREIGHT

Door to door all over the world

From the outset, CCS has considered the sea freight one of its primary activities. Throughout the evolution from conventional break bulk System to containers, from ro-ro to self-sustained vessels for the transport of exceptionally bulky items, CCS has always adjusted to handle the increasingly high volumes to ensure door to door transportation all over the world.

Thanks to our own offices, partners and agents worldwide, CCS provides Customs Clearance operations in all major ports. In Genoa with our own licensed personnel, in the rest of the world with consolidate and active partners.

CCS, leader in the chemicals transportation, arranges all export/import formalities necessary for the shipment of dangerous cargo.

AIR FREIGHT

Sophisticated systems of monitoring

As early as the '50s, CCS became aware of the potentially enormous development of transportation by air and obtained the IATA license. CCS can count on a vast network of partners and agents worldwide, on a highly advanced information system connected to the major airline companies for monitoring of cargo and on a remarkable bargaining power with the carriers. This is why CCS can offer its Customers state-of-the-art services at competitive conditions.
